Concor Infrastructure is one of the leading construction companies in the business of Roads, Bitumen Seals and Asphalt Surfaces, Bridges, Concrete Structures, Harbours and Marine work, Earth and Concrete Dams, Pipelines, Bulk Earthworks, Rock and Civil Engineering Construction.

We as Concor Infrastructure Management recognize the impacts of substandard quality products and services (ISO 9001:2008), unsafe and unhealthy working conditions (BS OHSAS 18001:2007) and also harming the environment we are working in (ISO 14001:2004), and as such commits to providing the necessary resources to achieve and exceed customer expectations whilst complying with the legal and statutory requirements.

Concor Infrastructure Management continuously create and maintain a favourable working environment where all stakeholders contribute towards the improvement of the organisational processes. Employees are mentored, coached, trained and developed to ensure productivity and profitability.

Individuals at all levels of the organisation are encouraged to identify any form of non-conforming products and services that would cause injury to personnel, harm to environment and poor quality to products and services so that corrective and preventive actions could be taken.

We as Concor Infrastructure Directors are committing ourselves to promoting and enhancing safety, health, environmental and quality in our operations through STOP, THINK and ACT 24/7 and also Visible Felt Leadership campaigns.
